

# HARTEK<sup>®</sup>

Making Your Future Powerful<sup>™</sup>

Mr. Sanjeev Gupta, an accomplished leader with over 38 years of transformative experience in the power sector, stands at the helm of Hartek Group's Power System, Transmission and Distribution, and Smart Cities business units. His journey from an Assistant Engineer at PSEB to Chief Engineer exemplifies his unwavering dedication and expertise.

Sanjeev's academic foundation is as robust as his career. He holds a Bachelor's degree in Engineering from Thapar Institute of Engineering and Technology, Patiala, and an MBA from Panjab University. These academic accolades have equipped him with a blend of technical prowess and strategic acumen, enabling him to drive innovation and efficiency within Hartek Group.

A passionate engineer and a visionary leader, Sanjeev's impact on the power division at Hartek Group has been profound. His leadership is marked by a relentless pursuit of excellence and a commitment to advancing the industry through cutting-edge solutions. Under his guidance, the company has made significant strides in enhancing our business offerings including upto 765kV EHV projects as well seamless integration of grid connectivity for renewable plants.

Sanjeev has been instrumental in strengthening India's power grid with reliable power system solutions and world-class services in strategically important power projects. His efforts have not only bolstered the nation's energy infrastructure but also powered industries across India with dependable power solutions, ensuring operational continuity and growth.

Sanjeev's wealth of knowledge and hands-on experience make him a true leader and guide, inspiring his team and the broader industry. His strategic vision and technical insights have been pivotal in positioning Hartek Group at the forefront of the power sector. His journey is a testament to the power of dedication, expertise, and visionary leadership.
